www.NotreInternationale.com

Executive leaders at privately-held, government sector, and Fortune 500 corporations engage Notre Internationale, The Self-Awareness Company, to understand and alleviate the challenges associated with developing inclusive environments. Our unique approach examines the behaviors eliciting specific results and helps organizations consider how self-awareness informs diversity, corporate culture and engagement, customer service, leadership development, and change management.

Human Experience Management

Self-awareness now drives corporate results. Our HXM consultancy unveils adjustable points often hidden in culture and leadership affecting team motivation and bottom-line performance. We combine proprietary methodologies with leading industry tools to help clients quickly recognize unhealthy habits that inhibit professional growth, team cohesiveness, and relationship management.

Emotional & Cultural Awareness

For a holistic approach, Notre blends insights from stakeholders with best practices in adult learning, models of behavioral change, cutting-edge research, and psychometrically sound assessments to provide traction, embrace values, and help create lasting change.

Authentic Diversity

Our evolutionary philosophy focuses on self-awareness and enables leadership to clearly navigate the changing organizational landscape. Notre consults with executive teams interested in developing self-awareness as a teachable skill within the corporate culture to transform the employee experience.

Team members learn how they and others contribute to their team's development, and how their part of the whole can make or break the team and its dynamic.

The MBTI® assessment is a robust tool for self-awareness and improvement, and provides positive language for understanding and valuing individual differences. With practical insight that's easy to understand and implement, MBTI® helps organizations and people improve how they communicate, learn, and work.

Improve workplace culture with personalized insights that lead to behavior change and deliver proven, soft-skills training with an immediate and lasting impact on culture.

This premier cross-cultural assessment builds intercultural competence—the capability to shift cultural perspective and appropriately adapt behavior to cultural differences and commonalities—to achieve diversity and inclusion goals and outcomes.
